GEOLUXE® provides 15-year warranty. For more information, please go to www.geoluxe.com

*GEOLUXE® does not provide any warranty on the improper or incorrect use of its products. Therefore, the company is not liable for any responsibility and cannot accept claims for any damages of any kind.

CHARACTERISTICS	TEST METHODS	SPECIFICATION
Width	ISO 10545-2	1400 mm.
Length	ISO 10545-2	3200 mm.
Thickness	ISO 10545-2	20.0 ± 0.5 mm.
Water absorption	ISO 10545-3	≤ 0.50 %
Breaking strength	ISO 10545-4	Not less than 3000 N
Resistance to deep abrasion	ISO 10545-6	Maximum 175 mm^3
Frost resistance	ISO 10545-12	Resisted
Resistance to thermal shock	ISO 10545-9	Resisted
Resistance to stains	ISO 10545-14	Minimum Class 4*
Resistance to chemical *- Common household* *- Acid*	ASTM C650	Not damaged
Reaction to fire	EN 13501-1	Class A1**

* Based on ISO 10545-14, Class 4 is defined that the stain is removed using a weak commercial cleaning agent.
** Based on EN 13501-1, Class A1 is defined as non-combustible product.
Remark: Specific test result by kit can be obtained upon request.

Available in following formats:

Thickness 20 mm (3/4 in)
Slab : 1400 x 3200 mm (55 x 126 in)
Color : Available in all colors

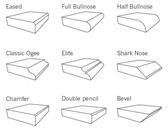
Thickness 12 mm (1/2 in)
Slab : 1400 x 3200 mm (55 x 126 in)
Color : Available in all colors except Bluette, Nestos Gray and Nestos Royal

Surface finishes

Polished
Honed

Edge profiles

The profiles below are a few of many edge designs to complement your precious masterpiece.



*Color of stones in this print may vary slightly due to the printing process. Final color selection should be made from stone samples.

GEOLUXE

GEOLUXE®
The ultimate surface for luxury and performance

WHAT IS GEOLUXE®?

GEOLUXE® is a breakthrough Pyrolithic stone combining the noble beauty of natural marble with superior technical performance. A complex mixture of 100% mineral-based materials formed through patented GeoMimicry™ technology, the slabs reveal realistic marble-like veins throughout. It overcomes the imperfections of natural marble and other manufactured surfaces, offering the ultimate combination of elegance and performance.

WHY GEOLUXE®?

PRECIOUS MARBLE DESIGN

Being inspired by rare and precious marbles from world's best sources curated by marble connoisseurs

ONE OF A KIND VEIN-THROUGH EFFECT

The one and only man-made material that achieves vein-through-body effect by patented Geomimicry™ technology

SUPERIOR TECHNICAL PERFORMANCE

With a complex mixture of 100% mineral-based materials without resin, GEOLUXE® is allowed to use OUTDOOR (due to UV resistance), free of scorch mark, resistant to stains and chemicals

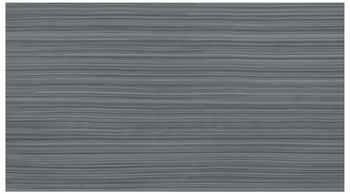
Fire and Heat Resistant
UV Resistant
Stain Resistant
Chemical Resistant
Frost Resistant
High Physical Strength
Low Water Absorption
Impact Resistant
Dimensional Stability
100% Mineral base

A LUXURIOUS COLLECTION THAT DRAWS ITS INSPIRATION FROM THE WORLD'S NOBLEST MARBLES

NEW COLLECTION: THE STORY OF ERAMOSA

ARTEMIS

Inspired by Eramosa, a rare and precious marble only quarried in Canada, and characterized by striking longitudinal veins. Its subtle contrast of earth toned whites makes it a versatile choice for creating warm welcoming spaces with an understated elegance.



AEOLUS

Inspired by Eramosa, a rare and precious marble only quarried in Canada, and characterized by striking longitudinal veins. Its high contrast earthy gray and dark gray accents bestow a sense of bold elegance to any space.

ERAMO

Eramo is inspired by the Canadian brown stone which its noble characteristics have charmed architects all over the world. Its warm color has been utilized in constructions of elegant palaces and important cathedrals.

EREBUS

Inspired by a Belgian black marble that is scarce in nature, hidden like a precious gem deep underground. Its intense dark background is tastefully balanced by diagonal traces of brilliant white.

ALIVERI

Dark and mysterious, Aliveri represents the truly exquisite Greek calcareous marble extracted from island not far away from Athens. Its white veining over a dark gray setting signifies classic contrast, yet restfully sophisticated.

BLUETTE

This exotic blue marble full of life and character is an Italian dolomite marble with its renowned value in the world market. This marble has an unusual tint of gray and blue vein that really comes alive and is the ideal stone for any opulent interior stone wall or floor and countertops.

DIONYSOS

Dionysos calls to mind the city located northeast of Athens city center. It epitomizes the city with the same name. Our version of this Greek marble offers the pure white background with light gray veins that flow across the slab.

PALISSANDRO

This white and blue marble is interpreted from the characteristic of the fine-grained, veined white marble found in dolomites. It shines beautifully gorgeous, resembling the perfect characteristics of classic Palissandro.

NESTOS ROYAL

With the embodiment of warmth and comfort, Nestos Royal aligns strands of white and cream to resemble the wood grain characteristic found only in the Nestos marble.

NESTOS GRAY

Resolute bands of stately gray with notes of white, silver, and beige recall the dignified Greek marble. The Nestos Gray can satisfy the demand in any types of the greatest projects, from the classic style to the most modern applications.
